DISABILITY/SPECIAL NEEDS TABLE

The following table list several medical/emotional conditions that may be mapped to AFCARS for foster care elements #10-15 and adoption #10-15. Some of the conditions listed below may not be characterized as a disability, but may qualify as a special need according to State policy.

If there are any questions regarding these conditions, or others not listed, send an email to AFCARSweb@acf.dhhs.gov.

DESCRIPTION

AFCARS MAP CODE

Blood disorder requires transfusions every three months Sickle cell with frequent episodes Controlled sickle cell anemia Blood disorder that required hospitalization once a month Is a carrier for sickle cell anemia Do not map Anemia, aplastic Hemophilia (Bleeder) Leukemia Heart murmur, activity not curtailed Heart murmur, vigorous activity curtailed Heart murmur, vigorous activity curtailed May require open heart surgery at a later date Definitely will require more than one open heart surgery In these instances, the heart condition itself is what should be mapped. Congenital heart anomaly Hear disease Has sight in both eyes but vision is limited and special glasses needed Has sight in only one eye Is blind but surgery may give partial sight Is blind and will never have sight Congenial anomaly of the eye Has hearing problem with partial hearing but surgery will help Hearing in only one ear Has hearing problem with partial hearing but surgery will not help Hearing in only one ear Is deaf but does not speak Do not map Do not map Do not map Do not map Hear discase 15 So not map Hear discase 15 So not map Has hearing problem with partial hearing but surgery Map only if diagnosed as a disability 12 Cataracts, infantile, juvenile, presenile 12 Cataracts, inf
